WHAT MADE THIS APP HAPPEN? IT MADE IT POSSIBLE TO FLIP AN WINDOWS APPLE MAC. WHAT DO I NEED TO GET STARTED? We have gotten a lot of questions so we will answer some of these here. We will keep updating this. • You will need to edit the registry to make this work for you. • You will need an app like ReTweak or AppCleaner to change your settings. Many games do not have an option to flip, they use their own resolution or have a menu to adjust it. Some games don't even have an option to flip, they play at the resolution they set when installed. • There is no option in the app to search for specific games. This is a very large app and we don't want to put too much more effort into it. We will do an update to let you search, but we won't have nearly as many games in the library. • If you get an error that says "Can't find file or folder" it is because you must have the correct path to the game in your settings and registry.
