Features Key:

Gameplay : A World of Fantasy An easy to play game where the atmosphere is enhanced by the exotic music and text, whilst free customizing of the equipment and selecting the job of the new character lets you create the perfect play style.

Interaction : Third-Person View The fully 3D camera view allows for immersion in the game's storylines. When you play as a member of the Council, or act as an adviser for others, your action is direct and you are directly involved in the drama.

Direction : Action with Customization The control scheme is made to complement the easy-to-operate and intuitive interface. You can freely set and customize skills by using a hotkey system.

An A Variety of Skills to Learn A variety of skills are developed, through the use of the stat-increasing Ring. From techniques that increase your hit power to those that strengthen your ability to resist damage, once you learn the strength of each skill, you will be able to jump into battle smoothly.

An Amazing Combat System Use your sword, gun, chain whip, or magic wand to perform fast and stylish combat actions. Feel free to perform dual and multiple attack combos, alongside the unique AI of each character.

A World that is Tailor-Made to Your Play Style You can choose to view the skill tree from a bird's eye view, follow the storylines on the 2D map at your own pace, or delve into the combat maps to enhance your own combat ability.

Flexible Role-Play that Makes You Feel Powerful Your choice of job affects the formation of the party and the process of developing the character. Pick from a variety of jobs, including swordsman, archer, mage, fist fighter, as well as members of the Council.

A World where the Game Develops with You You play as a member of the Council, or get to know and work alongside the other characters on a episodic basis. In addition to the protagonist of the game, there are several characters whom you can befriend and share tales with.

The new Twitter account, @UNWhistleblower, will tweet updates on important issues related to peace and security and will feature tweets from real UN ambassadors and experts in their respective fields. Chief among these will be James Anaya, the United Nations Special Rapporteur on the situation of human rights in the Central American isthmus (i.e., the Mexico-Guatemala border) and other countries. In April, Anaya issued a report calling on Mexico to address the human rights crisis in the country's southern border zone through implementation of the UN Declaration on the Protection of All Persons from Enforced Disappearances. Anaya also is a Special Rapporteur on the rights to freedom of peaceful assembly and of association. He's currently chairing the Inter-American Commission of Human Rights Advisory Board. His agency, the United Nations Human Rights Council, invited Anaya to make his 2011 report, which concluded that Mexico is failing to meet its human rights obligations, at this year's session. "Twitter is a powerful tool that can help to inform the public about the issues and challenges facing the United Nations, whether it's in the Central American isthmus or elsewhere," Anaya said in a press release. "The company has a global footprint, so I'm excited to be working with its Twitter team to amplify information about the human rights situation in countries and regions where I travel." ITU Director-General Dr. Hamadoun Toure, who will serve as the organization's "ambassador" on Twitter, said the partnership will "give the world a better view into the evolving world of diplomacy and highlight the need for greater access
