STORY

A hundred thousand years have passed since the sun that once illuminated the world has set.

Revan, the god of earth is angry. The gods of light shall die. Among them he has decided that his first victim is and will be his enemy

The gods of light stepped through the Land Beyond to live on the legendary ground of the Elden as humans. However, that was not their only objective. Along with their memories and reasons for being, the gods also gave powers to their

minds. Many of their god powers were lost forever. However, their powers remained, and they were granted to the descendants of humans called Tarnished who desired to forge new weapons to hurt gods.

The new generation of the gods of light, the Elden, has waited for centuries in the Land Beyond. Then, several years ago, an adventurer stole an ancient weapon from around 1000 years ago. In a battle against a god, this Tarnished should have blundered and he lost his will to live. That weapon was an ancient legendary weapon, the Elden Ring. He had an Elden wish, to become an Elden Lord. Despite all this, the Tarnished still fought on. Using the power of the Elden Ring, he was able to become even stronger. He became an Elden lord. This is a story of how he made his way back to the light.

As he relentlessly walked through the world, the Tarnished gained unprecedented physical strength, breaking the power of a god. In a battle against the Elden Ring, his efforts were able to restore the power of a god. Even so, in the end, he was destroyed. By the god-like power

Even though they are always required to help those in need, wielding the power of the Elden Ring makes them feel discontent within themselves. The great ambitions they embody inevitably draw them to adventure as the tale of the Elden Lords unfolds.
